

OIOLI

RUBINETTERIE

MADE IN ITALY SINCE 1960

OIOLI
MADE IN ITALY

Oioli began 60 years ago on Orta lake's shore; the piedmontese land of high quality taps and fittings, when the young Eusebio Oioli started producing and commercialising his products.

Simple taps, characterised by essential design and produced with great care. As all stories of those years, this historical company started with a life of privations, hard and tough work. A tradition that has not come to an end, as today, we can see the third generation, Oioli; a factory in continuous development.

The production is organised in a catalogue of more than 35 complete series, in which have been created after rigorous research of style and functionality. Thanks to the new settlement in Gozzano and to an efficient commercial network, the factory is growing on all national and international markets. offering an excellent product branded "Made In Italy" and studied after intelligent and professional work.

Quality and Italian genius/innovation are appreciated and recognized all over the world; this encourages us to keep on producing and feeling proud of our work, which is an old tradition.

 *E. Oioli*

1960

1968

1980

2018

Each product manufactured at Oioli uses raw materials and components of superior quality. Oioli ensures high quality manufacturing. All components of the manufacturing process are evaluated and inspected, whilst our control systems are under the constant watchful eye of highly trained craftsman. From the selection of materials to the finished product ready for exportation, Oioli ensures all products are thoroughly tested before shipment.

Oioli guarantees, under the defect limitations indicated below, all of its products for a period of **2 years** from purchase date.

- Casting defects.
- Defects on ceramic disc cartridges and headworks.
- Defects in chrome.

For mode, decadence, limitations and exclusions refer to the relevant warranty information booklet in the package.

USEFUL TIPS FOR CLEANING

Use only water and neutral soap to clean all our products and wipe them with a soft cloth. This will ensure the resistance & sheen of the finishing's throughout the years. Avoid the use of products containing abrasive substances, acids or solvents as they may cause serious damages.

Maximum working temperature: 80° C (176° F). We disclaim all responsibility deriving from the non-fulfilment of these instructions.

AERATOR MAINTENANCE

We advise a periodic maintenance in order to eliminate any impurities which could accumulate in the aerator filter.

Unscrew the aerator turning it anticlockwise and remove the filter and the seal washers.

Eliminate all impurities on the filter. Assemble and mount the aerator checking that it is placed in the right position.

POWDER COATING

PHYSICAL VAPOR DEPOSITION

GALVANIC PLATING PROCESS

- 100% “Made in Italy” quality guarantee
- Vision to provide an innovative, well designed, functional product to the public
- Premium construction
- Hand assembled, polished and packaged
- Original thinking and innovative design
- Major investment in global certification, reserch and development
- Adaptable faucets

- Customer relationship
- Customised Design Project
- 3D Prototyping
- Availability +25 finishing
- Customised Logo & Packaging
- Water flow and Materials Testing
- Production Flexibility
