«Nobile semplicità e quieta grandezza»

«Noble simplicity and calm grandeur»

Johann Joachim Winckelmann

# Shower CANOVA

Marble's niceness

La parola "marmo" deriva dal greco e significa "pietra splendente".  
**Graffio per primo ha saputo cogliere l'eterna bellezza di questo elegante e pregiato materiale fondendo emozione e design nella linea di soffioni doccia CANOVA.**

Naturale e semplice nella struttura, il marmo restituisce infinite forme che aprono all'immaginazione grazie alle sue caratteristiche estetiche e simboliche, rendendolo ambito protagonista in campo artistico e architettonico. Nobile nel suo vissuto e attuale nelle sue declinazioni, CANOVA si abbina sapientemente a materiali tecnologici di ultima generazione.

*The word "marble" comes from Greek and means "Shining stone".  
Graffio was able to catch the eternal beauty of this elegant and precious material merging emotion and design in the CANOVA shower head line.*

*Natural and simple in structure, marble grain gives back endless shapes, which open to the imagination thanks to its aesthetic and symbolic features.  
Noble in its history and current in its variations, marble is desired protagonist in the artistic and architectural field.  
CANOVA skillfully combines beauty with last generation technological materials.*

## CANOVA CALACATTA

### PREGIO E UNICITÀ

Calacatta oro Carrara viene estratto da un'unica montagna sopra Carrara. Le marcate venature colore grigio e oro, fuse nel bianco caldo, lo differenziano dallo Statuario per via della diversa composizione e profondità di reperimento. L'arte si è avvalsa di questo pregiato materiale nella realizzazione di opere monumentali sfruttando scenograficamente i caratteristici disegni, le sfumature e le intrusioni di terre dalle diverse tonalità.

### VALUE AND UNIQUENESS

*Calacatta gold is extracted from one single mountain above Carrara. The marked gold and grey grains, fused in a warm white differentiate Calacatta from Statuario because of the composition and depth of retrieval. Artists have over time made use of this precious material in the realization of monumental works exploiting scenically the peculiar designs, the nuances and intrusions of the different shades.*

TRATTAMENTO	Impregnante idrorepellente
TREATMENTRES	Water repellent treatment

## CANOVA PORTORO

### CARATTERE E BELLEZZA

Sofisticata varietà di marmo dal colore nero intenso e venature dorate, proveniente dalla zona di La Spezia. Geologicamente si tratta di calcare con venature carbonatiche a limonite formatosi in ambiente marino calmo, profondo, poco ossigenato e ricco di sostanza organica. Tale condizione ha favorito il formarsi di questo elegante contrasto che ha reso il Portoro ornamento delle principali residenze regali europee e, dal XX secolo, mezzo di espressione dei movimenti artistici e architettonici che rivoluzionarono il modo di pensare degli elementi d'arredo.

### CHARACTER AND BEAUTY

*Sophisticated variety of marble with intense black color and golden grains, coming from the area of La Spezia. Geologically it is limestone with carbonate grains in limonite formed in a calm, deep, slightly oxygenated marine environment rich of organic substance. This condition allowed the formation of this elegant contrast which made Portoro ornament of the main European royal residences and from the 20th century, tool of expression of artistic and architectural movements that revolutionized the way of thinking of furnishing elements.*

TREATMENTRES	Water repellent treatment

## CANOVA STATUARIO

### PRESTIGIO E STORIA

Marmo di grande prestigio, fra i più ricercati al mondo, lo Statuario ha origine dal cuore profondo di un'unica montagna sopra Carrara. Si contraddistingue per la straordinaria lucentezza dovuta al bianco assoluto dai toni freddi e le sue venature grigie di varie tonalità. Ampiamente utilizzato in ambito scultoreo sin dall'antichità grazie alla sua struttura che si presta alla lavorazione a tutto tondo, oggi risulta essere ancora apprezzatissimo per la sua capacità di gratificare armoniosamente ogni gusto estetico.

### PRESTIGE AND HISTORY

*Marble of great prestige, among the most sought-after in the world, the Statuario originates from the very heart of a single mountain above Carrara. It is characterized by extraordinary shine due to the absolute cold tones white and its grey grains of various shades. Widely used in sculpture since ancient times, thanks to its structure that lends itself to working in the round, STATUARIO is today still highly appreciated as it can harmoniously gratify every aesthetic taste.*

# Duetto

Raddoppia il piacere della doccia

## Due soffioni in uno...

Forme diverse che si incontrano, si colorano, si fondono e fanno nascere qualcosa di nuovo con una propria identità,

di una straordinaria semplicità ricca di significato.

Geometrie elementari che racchiudono tutta la forza e l'armonia dell'acqua.

## Two shower heads in one ...

Different forms that meet, get colored, merge and give birth to something new with its own identity, an extraordinary simplicity rich of meaning.

Elementary geometries that enclose the whole strength and harmony of the water.

Personality and character  
**My-rain**

Una proposta di soffioni robusti, ispezionabili e di facile manutenzione, nati dalla collaudata linea Gipzy di Graffio. Le linee semplici ben si abbinano a tutti gli stili di arredo bagno e si arricchiscono di personalizzazioni soddisfacendo le esigenze di attività ricettive, di servizi wellness o personali private. Tutto si può stampare: il logo aziendale, l'immagine suggestiva della propria attività, il disegno di un pattern oppure qualsiasi fotografia. My-rain, personalità e carattere per la doccia.

*A proposal of sturdy, inspectable and easy to maintain shower heads, born from the successful Gipzy line by Graffio. The simple lines combine well with all styles of bathroom furniture and are enriched with customizations satisfying several needs, both professional and private. Everything can be printed: the company logo, the evocative image of one's business, the design of a pattern or any photograph. My-rain, personality and character for the shower.*

Tondo - Round  
Ø 240 - Ø 300 mm

Quadrato - Square  
240x240 - 300x300 mm

Indicazioni per la personalizzazione:

**FOTOGRAFIE**

- L'immagine deve essere fornita in formato jpg oppure tif
- La dimensione deve essere uguale alla dimensione del soffione (es. per un soffione 300 x 300 mm occorre una fotografia di pari dimensione o, se espressa in pixel, 1770 x 1770)
- La definizione ideale è 300 dp, definizioni inferiori dovranno essere valutate
- Il file può essere sia in RGB che CMYK
- Non c'è limite per i colori ma non stampiamo colori speciali come i PANTONE® che vengono tradotti

**LOGO E ILLUSTRAZIONI**

- I disegni devono essere forniti in formato vettoriale (senza vincoli di dimensione)
- Se sono salvati in pixel valgono le indicazioni date per le immagini fotografiche.
- Non c'è limite per i colori e valgono le indicazioni date per le fotografie.

**EFFETTO GLOSSY**

- Indicazione valida sia per le fotografie che per i disegni
- Il file deve essere fornito con un file a parte di identiche dimensioni e registro di stampa rispetto al colore.

# GRAFFIO®

La linea GRAFFIO nasce dalla volontà di unire la consolidata esperienza di Nuova Osmo nella produzione di articoli per doccia al 100% Fabbricati in Italia, alla creatività, all'arte del "saper fare", all'unicità, tutta italiana, di lavorare materiali diversi traendo insegnamento da antiche tecniche di fabbricazione.

Questo forte sentimento di valorizzazione del lavoro e delle tradizioni artigiane ha trovato sviluppo in progetti innovativi con l'utilizzo di ceramica e vetro, rievocando il gesso, i tessuti damascati, la pelle, l'arte della luce e la forza dell'acqua nelle sue molteplici applicazioni. GRAFFIO: la forza e il coraggio dello Stile Fabbricato in Italia.

The GRAFFIO line was developed from the idea of combining the consolidated experience of the Nuova Osmo in the production of articles for showers "Made in Italy", with creativity and "know how" and the Italian uniqueness of working with diverse materials employing antique techniques. This strong sentiment and value of traditional craftsmanship has been developed within this innovative project utilising ceramic, glass, chalk, damask textiles, leather, the art of light and the strength of water in their multiple applications. GRAFFIO is the strength and courage of the Style Made in Italy.

La ligne GRAFFIO naît de la volonté d'unir à l'expérience que la Nuova Osmo a consolidée dans la Production 100% Italienne d'articles destinés à l'espace douche, la créativité, l'art du «savoir-faire», l'unicité typiquement italienne de travailler des matériaux divers et de s'enrichir d'anciennes techniques de fabrication. Le désir puissant de valoriser le travail et les traditions artisanales se retrouve dans le développement des projets innovants qui utilisent la céramique, le verre, et qui ré-invoquent le plâtre, les étoffes damassées, la peau, l'art de la lumière et la force de l'eau dans ses multiples applications. GRAFFIO: la force et le courage d'un Style Produit en Italie.

# E-COSCIENZA

GRAFFIO guarda al futuro: un costante impegno nella ricerca scientifica e tecnologica per prodotti ecosostenibili. L'azienda ha concentrato le sue capacità nello sviluppo di materiali alternativi, privi di sostanze tossiche, per trasformare le idee in articoli ben fatti, ecologici e riciclabili. L'attenzione a un bene prezioso come l'acqua e la sensibilità verso un utilizzo intelligente di questa risorsa hanno portato alla realizzazione di prodotti che racchiudono in sé estetica e rispetto per l'ambiente.

## ECOSCIENCE

GRAFFIO looks to the future: a constant commitment to researching technology and science to create environmentally sustainable products. The company has concentrated its ability on the development of alternative materials, not containing any toxic substances, to transform ideas into well made, ecological and recyclable articles. Attention paid to such a precious element as water, combined with the sensibility towards the intelligent use of this resource, brings us to the realisation of products that hold both style and respect for the environment.

## ECO CONSCIENCE

GRAFFIO regarde l'avenir: l'engagement constant dans la recherche scientifique et technologique pour produire dans le respect de l'environnement des articles écologiques. L'entreprise a concentré ses capacités sur le développement de matériaux alternatifs, non-toxiques, pour transformer ses idées en articles bien faits, écologiques et recyclables. L'attention réservée au bien précieux qu'est l'eau et la responsabilité de son intelligente utilisation a conduit l'entreprise vers la création de produits qui unissent l'esthétique et le respect de la nature.

# MADE IN ITALY

Vista del Lago d'Orta su cui si affaccia San Maurizio d'Opaglio, cuore del distretto industriale del rubinetto.  
Orta lake landscape. San Maurizio d'Opaglio, core of Italian faucets manufacturing district, is places along its bank.  
Vue du lac Orta, ou se trouve San Maurizio d'Opaglio, le cœur de l'industrie manufacturière de la robinetterie italienne.

## PRODOTTO IN ITALIA

Tutti gli articoli della linea GRAFFIO nascono e si sviluppano all'interno del processo produttivo Nuova Osmo a San Maurizio d'Opaglio in Piemonte. L'ufficio tecnico è attento allo sviluppo delle novità di mercato e sempre alla ricerca di innovazioni. La creatività e le capacità tecniche di Nuova Osmo consentono all'azienda di spaziare tra classico e moderno realizzando prodotti unici, senza tempo.

## MADE IN ITALY

All articles of the GRAFFIO line are made and developed within the production line Nuova Osmo at San Maurizio d'Opaglio, Piedmont. The technical department pays much attention to new developments on the market and is always searching for innovation. The creativity and technical ability of Nuova Osmo permits the company to range from classical to modern products thus remaining timeless.

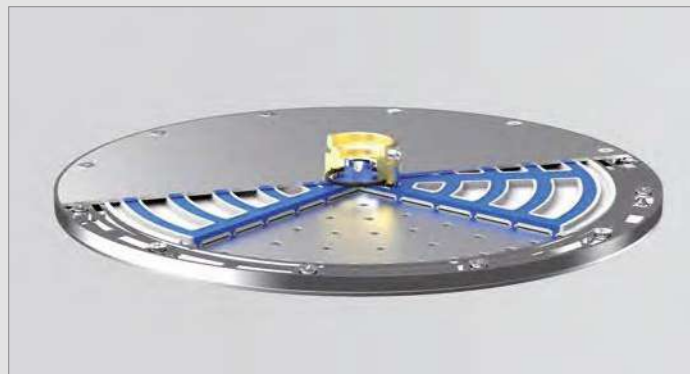

## PRODUIT EN ITALIE

Tous les articles de la ligne GRAFFIO naissent et sont développés au sein du processus de production Nuova Osmo à San Maurizio d'Opaglio, Piémont. Attentif aux nouveautés du marché, le bureau technique est constamment à la recherche d'innovations. La créativité et les compétences techniques de Nuova Osmo permettent à l'entreprise de déployer, entre classique et moderne, sa création de produits intemporels.

Certificazione relativa ai prodotti interessati

Cert. 433.060.V

GRAFFIO si distingue per i requisiti tecnici, le soluzioni innovative di installazione e l'utilizzo di materiali all'avanguardia.

I vantaggi di alcuni prodotti non sono sempre evidenti ma emergono con l'utilizzo.

1. EASY FIXING: requisito semplice che rende facile e sicura l'installazione e la manutenzione.
2. MEMBRANE INTELLIGENTI e GETTI INNOVATIVI IN SILICONE per raggiungere minore spreco d'acqua ed energia e più comfort senza rilascio d'acqua alla chiusura dei rubinetti.
3. Le cosiddette LISTARELLE dei soffioni ONE WAY termo-cromatiche permettono design innovativi e forniscono informazioni.
4. Il SILICONE è il miglior materiale utilizzabile per i soffioni doccia. Materiale igienico, indistruttibile e di facile pulizia, può essere lavato anche in lavastoviglie. I soffioni ISPEZIONABILI della linea GRAFFIO garantiscono la possibilità di una semplice manutenzione che permette di avere nel tempo prodotti efficienti.
5. DIFFUSORI: l'acqua all'interno dei soffioni viene distribuita in modo omogeneo grazie all'utilizzo di un apposito diffusore.
6. LIMITATORI DI PORTATA: tutti i prodotti aziendali vengono studiati nell'ottica del miglior rapporto tra risparmio d'acqua ed energia e funzionalità.
7. DEVIATORE MINIMALISTA: un progetto semplice ed innovativo che garantisce facilità di utilizzo e libertà progettuale.
8. BRACCI RINFORZATI: garantiscono un'installazione più sicura anche per i soffioni di grandi dimensioni.
9. FISSAGGIO A SLITTA: è ideale per le applicazioni più moderne, dove le pareti in cartongesso permettono agli architetti maggiore flessibilità. Fissare il prodotto alla parete senza pesare sulle tubature garantisce una perfetta applicazione anche in fase di ristrutturazione.

# TECNICA

GRAFFIO distinguishes itself through its technical requisites; innovative solution for its installation and the utilisation of modern materials.

The advantages of many products are not always so evident, their quality emerges through their utilisation.

1. EASY FIXING: a simple requisite which makes for an easy and secure installation and maintenance.
2. SMART MEMBRANES & INNOVATIVE SILICON JETS: all research made by the technical department consent the perfection of the distribution of water in the showerhead. Achieving the least possible waste of water and energy, maximum comfort with no dripping once the tap has been turned off.
3. The so called "LISTARELLE ONE WAY" of the shower head in the thermo-chromatic version permits innovative design and supply information.
4. SILICON is the best material utilized for shower head. Hygienic, indestructible and easy to clean, it can even be cleaned in the dishwasher. Inspectionable shower heads from the GRAFFIO line are easily maintained, which permits one to keep efficient products over time.
5. DIFFUSERS: the water inside the shower head is distributed evenly thanks to the use of a suitable diffuser.
6. FLOW LIMITERS: All of our company products are studied with the objective to maximise the ratio between water and energy saving and functionality.
7. MINIMALISTIC DIVERTER: a simple and innovative project, which guarantees ease of use and design freedom.
8. STRENGTHENED ARMS: guarantee a more secure installation also for larger shower heads.
9. SLIDING FIXTURES: through an innovative sliding fixture, the technical department of Nuova Osmo has developed a more modern application, whereby on walls made in plasterboard, the architects have more flexibility. The ability to fix the product onto the wall without weighing down the pipe-work, guarantees a perfect application in the restructuring phase.

GRAFFIO se distingue par sa technicité, par des solutions innovantes d'installation et par l'utilisation de matériaux à l'avant-garde.

Pas toujours évidents, les avantages de certains articles émergent en qualité à l'usage.

1. EASY: le système qui simplifie et sécurise l'installation et en facilite l'entretien.
2. DES MEMBRANES INTELLIGENTES ET DES JETS INNOVANTS EN SILICONE: les recherches menées par les bureaux techniques de l'entreprise ont abouti sur la distribution parfaite de l'eau à l'intérieur des pommes de douche. Ceci entraîne des économies d'eau et d'énergies et améliore le confort, sans qu'aucune perte d'eau n'advienne à la fermeture du robinet.
3. Les BAGUETTES en silicone spécifiques aux pommes de douche ONE WAY versions thermochromatique permettent des esthétiques innovantes et fournissent des informations utiles.
4. DIFFUSEURS: l'eau à l'intérieur des pommes de douche est distribuée de façon homogène grâce à l'utilisation de diffuseurs appropriés.
5. Le silicone est, de fait, le meilleur matériel utilisable dans les pommes de douche car il est hygiénique, indestructible, facile à nettoyer et à entretenir.
6. LIMITEURS DE DEBIT: tous les produits de l'entreprise sont étudiés dans l'optique du meilleur rapport entre l'économie de l'eau et de l'énergie et fonctionnalité.
7. INVERSEUR MINIMALISTE : un projet simple et innovant qui garantit une facilité d'utilisation et une liberté de conception.
8. BRAS RENFORCES : garantissant la bonne tenue des pommes de douche grands formats.
9. FIXATION COULISSANTE : une innovation que le bureau technique de Nuova Osmo a réalisée pour que les architectes aient plus de flexibilité dans les applications modernes sur parois en cartongypse. Fixer le produit à la paroi sans qu'il ne pèse sur la tuyauterie, garantit une installation parfaite même lors de rénovation.

Il tubo in ferro – il più tradizionale sistema di condotta d'acqua – è stato il vero ispiratore di TU-YO, linea completa di rubinetteria e articoli doccia applicabili sia in interno che in esterno.

*The most traditional system of water conduction, "iron tubes", was the true inspirer of the TU-YO project, a complete line of bathroom and shower articles having application both internally and externally.*

*"Le tuyau en fer", le plus traditionnel parmi les conduits d'eau, est la source inspiratrice du projet TU-YO, une collection complète de robinetterie pour la salle de bain et la douche, installables aussi bien à l'intérieur qu'à l'extérieur.*

Il gesso e gli stucchi che hanno da sempre caratterizzato lo stile delle residenze di lusso italiane hanno ispirato la linea FRAME, che con l'utilizzo di nuovi materiali, più leggeri e maneggevoli, raggiunge sorprendenti risultati estetici.

*Chalk and rendering that have always characterised the style of luxury Italian residences, inspired the FRAME Collection that, using new and lighter materials, which are easy to apply, achieves a surprising finished result.*

*Le plâtre et les moulures qui ont toujours caractérisé les résidences de luxe italiennes, ont inspiré la collection FRAME, la quelle, en utilisant de nouveaux matériaux plus légers et plus malléables, obtient des résultats esthétiques surprenants.*

# One Way

La collezione ONE WAY si distingue per le “listarelle”: nuove geometrie per un design originale realizzato con un materiale “parlante”, capace di dare informazioni sulla temperatura dell’acqua.

*The ONE WAY Collection distinguishes itself by its strips, “listerelle”: new geometric shapes for an original design created with a “talking” material, able to give information on the temperature of water.*

*La collection ONE WAY se distingue par les nouvelles géométries de ces “baguettes”: un design innovant créé avec une matière “parlante”, capable de fournir des informations sur la température de l’eau.*

L'eco-sostenibilità va vissuta. Il design è progettazione industriale alla base del quale sta la ricerca. L'alluminio è una lega priva di sostanze tossiche e totalmente riciclabile. Nuova Osmo è l'unica azienda a portare avanti la ricerca sui soffioni in alluminio. La collezione ALLUMINIO favorisce il risparmio idrico ed energetico e la facilità di installazione.

*Environmental sustainability should be lived. Design is the industrial project which is supported by research. Aluminium is a metal containing no toxic substance and totally recyclable. Nuova Osmo is the only company to move forward in the research of aluminium showerheads. The ALLUMINIO collection not only favours energy and hydro saving but also ease of installation.*

*Vivre dans le respect de l'environnement. Le design est dans le projet industriel qui se base sur la recherche. L'aluminium est un alliage dépourvu de substances toxique et complètement recyclable. Nuova Osmo est la seule entreprise qui a entrepris la recherche sur les pommes de douches en aluminium. La collection ALLUMINIO favorise les économies hydriques et énergétiques et facilite l'installation.*

Il corretto e proficuo utilizzo dell'acqua è sempre alla base del lavoro dei nostri tecnici. Quando nel 2008 insieme al designer Luca Papini è stato studiato il soffione Darwin, tutti i particolari sono stati pensati per ottenere un confortevole getto pioggia ed un notevole getto cascata pur mantenendo basse le portate. Il prodotto nel 2010 è stato premiato al Good Design Awards di Chicago nella sezione Bath & Accessories.

*The correct and profitable use of water is always the base of the work of our technicians. When in 2008, together with the designer Luca Papini, the Darwin showerhead was studied, all the details have been designed to obtain a comfortable rain jet and a considerable waterfall jet while keeping the flow rates low. The product was awarded in 2010 at the Good Design of Chicago in the Bath & Accessories section.*

*L'usage correct et avantageux de l'eau est toujours la base de travail de notre personnel technique. Dans l'année 2008 quand, avec le designer Luca Papini, la pomme de douche Darwin a été étudiée, tous les détails ont été réalisés à obtenir une pluie confortable et une remarquable cascade, et dans le même temps en gardant à une débit contenu. Le produit a été primé dans le 2010 au Good Design Awards de Chicago dans la section Bath & Accessories.*

Sia nei bagni delle strutture ricettive che nei bagni privati, l'attenzione all'igiene personale è sempre maggiore. L'esperienza Nuova Osmo nella produzione di doccette igieniche facilita Graffio nella proposta di shut-off e iperscopini. Le prese con "acqua-stop" brevettate ne permettono un utilizzo sempre sicuro.

*Within both private bathrooms found in the home and bathrooms within public structures, attention to personal hygiene are of utmost importance. The experience of Nuova Osmo in the production of hygienic shower jets has given Graffio an advantage in the production of their innovative product "shut-off" and "iperscopini" (hydro brush). The jets with the patented "acqua-stop" function, make for a secure utilization.*

*Autant dans les salles d'eau des collectivités que dans la propre salle de bain, l'hygiène personnelle est un facteur croissant. L'expérience que Nuova Osmo a consolidées dans la production des douchettes hygiéniques sont, pour Graffio, les atouts déterminants des «shut-off» et des hydro-brosses. Les prises d'eau brevetées qui ouvrent et ferment l'eau rendent leur utilisation facile et sûre.*

Tecnologia al servizio del design. La serie HOOK utilizza la tecnologia per estremizzare il minimalismo. Il rubinetto ridotto alla sola bocca erogatrice, il funzionamento al semplice tocco. Il miscelatore HOOK garantisce confort e rispetto per l'ambiente. Temperatura e tempo di erogazione possono essere impostati a piacere; la portata dell'acqua è limitata. Ecologia che rispetta le nostre comodità.

*Technology for design. The HOOK series utilises technological ability to express minimalism. A tap reduced to its spout, functioning with just one touch. The mixer tap HOOK guarantees comfort and respect for the environment. Temperature and "dispense time" can be programmed accordingly; the flow of water is limited. Ecology which respects our own convenience.*

*La technologie au service du design. La série HOOK utilise la technologie capacitive et pousse le minimalisme à son extrême. Réduit à son simple bec d'écoulement, le robinet HOOK fonctionne par simple touché. Le mitigeur HOOK assure le confort et respecte l'environnement. La température et le temps d'écoulement peuvent être prédisposés au grès de l'utilisateur; le débit de l'eau est limité. L'écologie répond à nos désirs de confort.*

## Condizioni generali di vendita

Le presenti condizioni generali disciplinano tutti gli attuali e futuri contratti fra le parti, salvo eventuali deroghe specificatamente concordate per iscritto. Eventuali condizioni generali del compratore non troveranno applicazione nei rapporti futuri tra le parti se non espressamente accettate per iscritto dalla ditta Nuova Osmo.

### 1. Formazione del contratto

L'invio da parte del compratore di un ordine al venditore comporta l'applicazione al contratto di vendita delle presenti condizioni generali. Il venditore si riserva il diritto di accettare o rifiutare l'ordine ricevuto. Le offerte fatte da agenti, rappresentanti ed ausiliari di commercio del venditore non sono per lui impegnative fino a quando non siano confermate dal venditore stesso.

### 2. Prezzi

Ai prezzi indicati nel presente listino deve essere applicata l' I.V.A. secondo l'aliquota in vigore al momento della fatturazione. Il venditore si riserva di modificare i prezzi, o variare il listino prezzi senza alcun preavviso.

### 3. Resa della Merce

Salvo patto contrario, la fornitura dei prodotti si intende Franco Fabbrica del venditore: trasporto ed assicurazione sono pertanto a carico del compratore e ciò anche quando sia convenuto che la spedizione o parte di essa venga curata dal venditore, nel qual caso quest' ultimo agirà come mandatario del compratore, essendo inteso che il trasporto verrà effettuato a rischio del compratore. I rischi relativi alla fornitura passano al compratore al momento in cui i prodotti lasciano lo stabilimento del venditore.

### 4. Termini di consegna

I termini di consegna si intendono approssimativi a favore del venditore e comunque con un congruo margine di tolleranza. È esclusa qualsiasi responsabilità del venditore per danni derivanti da anticipata, ritardata o mancata consegna, totale o parziale. Il compratore è sempre tenuto a prendere in consegna i prodotti, anche in caso di consegne parziali e quando i prodotti vengano consegnati prima o successivamente alla data di consegna stabilita. Il termine di consegna verrà prorogato di un periodo pari a quello della durata dell'impedimento al verificarsi di cause di forza maggiore. In nessun caso, a causa del verificarsi di tali circostanze, il compratore potrà esigere compensi o indennizzi di qualsiasi natura.

### 5. Garanzia

Il venditore garantisce la conformità dei prodotti forniti; con il termine di conformità dei prodotti si intende che essi corrispondono per qualità, quantità e tipo a quanto stabilito nel contratto e che sono esenti da vizi che potrebbero renderli non idonei all'uso cui sono destinati. La garanzia per vizi è limitata ai soli difetti dei prodotti conseguenti a difetti di progettazione, di materiale o di costruzione riconducibili al venditore e non si applica nel caso in cui il compratore non provi di aver effettuato una corretta conservazione dei prodotti e di non averli modificati senza il consenso del venditore. Il venditore non risponde dei difetti di conformità dei prodotti dovuti all'usura normale di quelle parti che, per loro natura sono soggette a usura rapida e continua.

### 6. Reclami

Il compratore è tenuto a verificare la conformità dei prodotti e l'assenza di vizi. I reclami relativi a non conformità dei prodotti forniti dovranno essere effettuati, a pena di decadenza, entro e non oltre quindici giorni dal ricevimento della merce a destino. I vizi, difetti o non conformità occulti devono essere denunciati immediatamente alla loro scoperta e comunque, a pena di decadenza, entro e non oltre sei mesi dalla data di consegna. Tutti i reclami devono essere effettuati mediante lettera raccomandata indirizzata al venditore e devono indicare dettagliatamente i vizi e le non conformità contestate. La garanzia ha una durata di sei mesi.

### 7. Rimedi

In caso di prodotti non conformi, e dopo aver ricevuto un rapporto dettagliato dal compratore, il venditore potrà, a sua insindacabile scelta:

a) fornire gratuitamente Franco Fabbrica al compratore prodotti dello stesso genere e quantità di quelli risultanti difettosi o non conformi a quanto pattuito, dopo averne ottenuto la resa per la verifica. L'eventuale sostituzione effettuata prontamente dal venditore non può essere ritenuta un implicito riconoscimento dei vizi contestati: detto riconoscimento dovrà essere sempre esplicito e conseguente al controllo del venditore sui prodotti contestati. Qualora il venditore, in sede di verifica, non riconosca viziati i prodotti, provvederà alla fatturazione di quelli inviati in sostituzione.

b) emettere una nota di accredito a favore del compratore per un importo corrispondente al valore dei prodotti difettosi.

In entrambi i casi il venditore ha diritto alla restituzione dei prodotti difettosi, che diventano di sua proprietà.

### 8. Limitazione di responsabilità del venditore

Salvo dolo o colpa grave del venditore, l'eventuale risarcimento di qualsiasi danno al compratore non potrà comunque superare il prezzo di fattura dei prodotti contestati.

### 9. Pagamento

I pagamenti ed ogni altra somma dovuta a qualsiasi titolo al venditore si intendono netti al suo domicilio. Qualsiasi ritardo o irregolarità nel pagamento dà al venditore il diritto di sospendere le forniture o di risolvere contratti in corso, anche non relativi ai pagamenti in questione, nonché il diritto al risarcimento degli eventuali danni. Il venditore ha altresì il diritto a decorrere dalla scadenza del pagamento, agli interessi moratori nella misura stabilita in Italia dall'articolo 5 del Decreto Legislativo 9 Ottobre 2002, n° 231. Il ritardo nei pagamenti dà altresì al venditore il diritto di escludere la garanzia per tutto il periodo durante il quale il ritardo perdura.

### 10. Riserva di proprietà

I prodotti consegnati restano di proprietà del venditore sino al momento del completo pagamento del prezzo.

### 11. Legge applicabile e foro competente

Tutti i contratti disciplinati dalle presenti condizioni generali sono regolati dalla legge italiana.

Per ogni controversia relativa o comunque collegata ai contratti cui si applicano le presenti condizioni generali è esclusivamente competente il foro del venditore: quest'ultimo avrà tuttavia facoltà di agire presso il foro del compratore.

## General conditions for sale

These general conditions regulate all present and future sales contracts between the parties, subject to any exceptions specifically agreed upon in writing. Any general conditions of the purchaser will not apply to future contractual relations between the parties unless expressly accepted in writing by Nuova Osmo.

### 1. Formation of the Contract

The purchaser placing the order fully accepts the application of these general terms to the contract for sale. Seller reserves the right to accept or refuse it. Offers made by Agents, Representatives or auxiliaries of the seller do not bind him until they are confirmed by the seller itself.

### 2. Prices

The prices indicated in this price list do not include V.A.T. or any other tax whatsoever. Seller may modify the prices / price list without prior notice.

### 3. Surrender of the goods

Unless agreed to the contrary, the supply of the products is intended ex-factory: transport and insurance are therefore at the charge of the purchaser, this also when it is decided that the delivery or part of it will be taken care of by the seller, in which case the latter will act as the purchaser's agent, it being understood that the transport will be carried out at the expense and risk of the purchaser. The risk relative to the supply pass to the purchaser, at the latest at the time in which the products leave the seller's plant.

### 4. Delivery terms

The delivery limits are agreed approximately in favour of the seller and not binding for him. Any liability of the seller is excluded for damage deriving from anticipated, delayed or non delivery, total or partial.

The purchaser is always held to take delivery of the products, even in the case of partial deliveries and even when the products are consigned before the established delivery date of successively to that date.

The seller shall not be deemed to be in breach of this agreement, or otherwise be liable to the purchaser, by reason of any delay in delivery, to the extent that the delay is due to any Force Major, and the time for performance of delivery shall be extended accordingly.

### 5. Guarantee

The seller guarantees the compliance of the products supplied; by the term compliance of the products it is meant that they correspond in quality, quantity and type to what was agreed in the contract and that they are without defects that could render them unfit for the use to which they are intended to be put. The guarantee against defects is limited only to product defects due to defects in planning, materials or construction that can be attributed to the seller, and does not apply in the case where the purchaser is unable to prove a correct preservation of the product and where he has modified them without the agreement of the seller. The seller is not liable for defects in product compliance due to the normal wear of those parts which, by nature, are subject to rapid and continuous wear and tear.

### 6. Claims

The purchaser is required to control the compliance of the products and the absence of flaws.

Claims relevant to non-conformities of the goods must be made, on pain of forfeiture, within and not later than fifteen days from the goods arrival at their place of destination.

Hidden flaws, defect or non-compliances must be reported immediately after the discovery and in any event, on pain of forfeiture, not later than six months from the delivery date.

Claims must be made by registered letter, addressed to the seller and must describe in detail the flaws or disputed non-compliances. The guarantee is for a limited period of six months from delivery date.

### 7. Remedies

In case of faulty products and following to a report by the purchaser, the seller may at his discretion:

- supply ex-factory to the purchaser products of the same kind and quantity as those that proved not in compliance, on receiving returns for checking. Any replacement carried out promptly by the seller cannot be considered as implicit recognition of defects claimed: said recognition must always be explicit and following control by seller on goods challenged: should the seller, on controlling, find the goods in compliance, he will invoice for those sent in replacement;
- issue to the purchaser a credit-note in the amount equal to the value of the defective products.

In both cases the purchaser shall return the faulty products to the seller.

### 8. Limit of the seller's liability

Except in the case of fraud or gross negligence on the seller's part, compensation of any damage to the purchaser will not, in any event, be greater than invoice price of the disputed products.

### 9. Payments

The payment and every other sum due to the seller, are understood as net at the registered office of the seller.

Any delay or irregularity in the payment gives the seller the right to suspend the supply or to cancel the contract in course, even if they are not relevant to the payment in question, as well as the right to the compensation for eventual damages. The seller has also the right – starting from the payment deadline – to interests for delay as per art. 5 of Italian Legislative Decree no. 231 of 09/10/2002. The delays of payment likewise give the seller the right to exclusion from guarantee, for the whole period that the delay may persist.

### 10. Retention of Title

The delivered products remain the seller's property until the moment of the complete payment of the price.

### 11. Applicable Law and Competent Law-Court

All contracts ruled by these general conditions are submitted to Italian Law. For any controversy relative to, connected to the contractual products to which these general conditions apply, the seller's Law-Court has the exclusive competence: the latter, however, will have the opportunity to act also in the purchaser's Law-Court.

## Conditions générales de vente

Les présentes conditions générales disciplinent tous les contrats actuels et futurs entre les parties, sous réserve des exceptions convenues par écrit. Toutes les éventuelles conditions générales de l'acheteur ne trouveront pas d'application dans les relations futures entre les parties si non expressément acceptées par écrit par la société Nuova Osmo.

### 1. Formation du contrat

L'envoi par l'acheteur au vendeur d'une commande entraîne l'application au contrat de vente des présentes conditions générales. Le vendeur se réserve le droit d'accepter ou de refuser l'ordre reçu. Les offres faites par les agents, représentants et intermédiaires commerciaux du vendeur ne contraignent le vendeur que dès lors qu'elles sont confirmées par le vendeur lui-même.

### 2. Prix

Aux prix indiqués dans cette liste de prix doit être appliquée l'I.V.A au taux en vigueur au moment de la facturation. Le vendeur se réserve le droit de modifier les prix, ou de modifier la liste de prix sans aucun préavis.

### 3. Marchandise rendue

Sauf si contrairement convenu, la fourniture des produits s'entend départ usine du vendeur: transport et assurance sont pour autant à la charge de l'acheteur et ceci même lorsqu'il est convenu que l'expédition du lot ou d'une partie de celui-ci est préparée par le vendeur, dans ce cas, ce dernier agira comme représentant de l'acheteur, entendu que le transport sera effectué au risque de l'acheteur. Les risques relatifs à la fourniture passent à l'acheteur dès que la marchandise quitte l'usine du vendeur.

### 4. Termes de livraison

Les délais de livraison s'entendent approximatifs en faveur du vendeur et en tout cas avec une marge de tolérance raisonnable. Toute responsabilité du vendeur est exclue pour dommages dérivant de livraison anticipée, retardée ou manquée de façon totale ou partielle. L'acheteur est toujours tenu à prendre les produits livrés, même en cas de livraisons partielles et lorsque les marchandises sont livrées avant ou après la date de livraison prévue. La date de livraison sera prolongée d'une période égale à la durée de l'empêchement à l'apparition de causes de force majeure. En aucun cas, à cause de survenance de telles circonstances, l'acheteur ne pourra prétendre à indemnisation ou remboursement de quelque nature.

### 5. Garantie

Le vendeur garantit la conformité des produits fournis; avec le terme conformité des produits il est entendu que ces produits correspondent en qualité, quantité et type à ce qui est établi dans le contrat et qu'ils sont exempts de défauts qui pourraient les rendre impropres à l'usage auquel ils sont destinés.

La garantie pour les défauts est limitée aux défauts des produits résultants de défauts de conception, de matériaux ou de fabrication imputables au vendeur, et n'est pas applicable dans le cas où l'acheteur ne prouve pas qu'il a correctement conservés les produits et qu'il ne les a pas modifiés sans le consentement du vendeur. Le vendeur ne répond pas des défauts de conformité des produits qui sont dus à l'usure normale des pièces qui, de par leur nature, sont soumises à une usure rapide et continue.

### 6. Plaintes

L'acheteur est tenu de vérifier la conformité des produits et l'absence de vices. Les plaintes relatives à non-conformité des produits fournis doivent être faites, sous peine de déchéance, au plus tard dans les quinze jours qui suivent de la réception à destination des marchandises. Les vices, défauts ou de non-conformité cachés doivent être signalés immédiatement à leur découverte et, en tout cas, sous peine de déchéance, au plus tard dans les six mois à compter de la date de livraison. Toutes les plaintes doivent être faites par lettre recommandée adressée au vendeur et doivent indiquer de façon détaillée les vices et les non-conformités contestés. La garantie a une durée de six mois.

### 7. Recours

En cas de produits non conformes, et après avoir reçu un rapport détaillé de l'acheteur, le vendeur peut, à sa seule discrétion:

- fournir gratuitement à l'acheteur en départ usine des produits de même nature et quantité que ceux résultants défectueux ou non conformes à ce qui avait été établi, après en avoir obtenu le rendement pour vérification. Tout éventuel remplacement effectué sans délai par le vendeur ne peut pas être considérée comme une reconnaissance implicite des défauts contestés: la dite reconnaissance devra toujours être explicite et conséquente au contrôle de la part du vendeur des produits contestés. Si le vendeur, après vérification, ne reconnaît pas de défaut qui lui soit imputable sur les produits, il facturera les produits envoyés en substitution;
- émettre une note de crédit en faveur de l'acheteur pour un montant correspondant à la valeur des produits défectueux. Dans les deux cas, le vendeur a le droit à la restitution des produits défectueux, qui deviennent de sa propriété.

### 8. Limitation de responsabilité du vendeur

Sauf intention ou faute grave du vendeur, l'éventuelle compensation de tout dommage à l'acheteur ne pourra en aucun cas dépasser le prix facturé des produits contestés.

### 9. Paiement

Les paiements et toute autre somme due à quelque titre que ce soit au vendeur, s'entendent nets à son domicile. Tout retard ou irrégularité dans le paiement donne au vendeur le droit de suspendre les livraisons ou de résilier les contrats en cours, même s'ils ne sont pas relatifs aux paiements en question, ainsi que le droit à l'indemnisation des dommages. Le vendeur a également droit, à partir de la date d'échéance du paiement, aux intérêts de retard dans la mesure établie à l'article 5 du décret législatif italien 9 Octobre 2002 n° 231. Le retard de paiement donne également au vendeur le droit d'exclure la garantie tout au long de la période durant laquelle le retard persiste.

### 10. Réserve de propriété

Les produits livrés restent sous la propriété du vendeur jusqu'à complet paiement du prix.

### 11. Loi applicable et juridiction

Tous les contrats disciplinés par ces conditions générales présentes sont régies par la loi italienne. Tout litige dérivant de, ou relié à des contrats auxquels s'appliquent ces conditions générales est sous la compétence exclusive de la juridiction du vendeur: ce dernier aura toutefois la faculté d'agir dans la juridiction de l'acheteur.
